

WASHERBOX RULES

Fond du Lac Rugby Style

Revised 2/2/10

- 2 people per team.
- A round consists of one player throwing 2 washers in a row toward the opposite box, then the player from the other team throwing two washers in a row at the same box. All 4 washers in each round shall begin at the same end (box).
- Coin flip determines which team throws to start the match.
- Scoring:
 - In box or on rim/edge = 1 point.
 - In cup = 3 points.
 - "Leaners" = 0 points.
 - Bounced into box from outside = 0 points
- All points count. The only point cancellations are when player stepped over foul line.
- The team who scored more points than the other team in the most recent round begins each round.
- Boxes are 21 feet apart, between center of cups.
- Feet must remain behind front of box.
- Players may toss from anywhere behind the front of the box from which they are throwing, but all three throws must be taken from the same side as the first throw in a round.
- Each match is played to 21 points. If your point total is over 21 points, then the amount you are over will be subtracted from your score before the round started. For example, if you started at 19 and threw a 1-pointer, then a 3-pointer, then you would have to subtract two points from your starting score of 19, yielding a new score of 17. Your round is over as soon as you reach or exceed 21 points.
- If a match is tied at 21, then sudden death will go into effect. A coin toss will determine who throws washers first for the next round. Each player will throw one washer at a time from one end (box). The other two players on the opposite end (box) will then throw 1 washer each. This will continue until one team scores more points than the other at the end of each round.
- A "Shutout Win" of at least 11-0 goes into effect if a round ends with such a score.
- A "Washout Win" of at least 17-1 goes into effect if a round ends with such a score.
- Maximum 25 minutes per match.
- Championship match: plays to 21 points with no time limit.
- Boxes are 19" x 19" square with 2x4 wood frame/rim, plywood base and a 4"OD PVC cup in the center. Box sizes may vary slightly.
- Washers are 2.5" diameter with a 1" hole. Players must use washers provided. Washers are different color per team.
